

Join ISA...

and enjoy a worldwide network of technical and career resources that can help you excel in your career. Information is power, and, as a part of ISA's global membership, you will have access to the most timely, useful information in the automation field—so that you can become a powerful, valuable automation professional.

Founded in 1945, the International Society of Automation (www.isa.org) is a leading, global, nonprofit organization that is setting the standard for automation by helping over 30,000 worldwide Members and other professionals solve difficult technical problems, while enhancing their leadership and personal career capabilities. Based in Research Triangle Park, North Carolina, ISA develops standards, certifies industry professionals, provides education and training, publishes books and technical articles, and hosts conferences and exhibitions for automation professionals. ISA is the founding sponsor of the Automation Federation (www.automationfederation.org).

Setting the Standard for Automation™

ISA... Your professional association

Welcome to the world of the **professional**—the automation, control systems, and instrumentation professional. Whether you are a technician, an engineer, or a researcher, if you develop, specify, design, procure, provide, install, test, qualify, operate, or maintain automated systems or components, you are part of the automation community.

Now is the time to turn your job into a career. You'll need good resources to stay current on technology. You'll need opportunities to network with others and to develop leadership skills. These resources and more are yours when you become a member of the International Society of Automation (ISA). With the support of this dedicated organization, you'll have tools to advance yourself, your organization, and the automation profession.

Join ISA ...and enjoy exclusive member benefits

Professional networking that helps your career grow

A career is something you build and cultivate over a lifetime. There's no better resource than a network of technical and professional colleagues

who are willing to help long the way. As a member of ISA, you have access to

- in-person networking at local ISA section meetings, training events, symposia, and conferences, and on committees, that broaden your professional and personal base while you gain valuable knowledge
- online networking via ISA's website list serves that connect you with automation professionals from around the world for idea exchanges and technical advice, making you a more-valuable employee, manager, or contractor

Broaden your community! Join ISA and watch your career take off—while you learn to make your business more efficient and profitable.

Leadership skills that set you apart

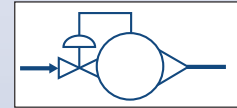

The ability to organize and lead effectively is one of the most important attributes you can bring to your career. It can even tip the scales in your favor

when promotion or hiring decisions are made. But, many times, we need more opportunities to build and hone leadership skills than our workplaces can provide. ISA offers the free leadership-development resources you need to improve or develop this sought-after skill.

When you join ISA, you'll be able to:

- participate in our free Leadership Development Certificate Program, which provides both online and in-person training
- get general leadership training as well as ISA-specific training.
- hone your skills at local section events, division symposia, and other activities
- get the guidance and experience you need, in a self-paced and nurturing environment

ISA standards that lead you to success

Your business, products, and services are impacted every day by ISA standards. ISA has published more

than 150 industry standards, recommended practices, and technical reports for automation technologies and applications. These world-renown resources help streamline processes and improve safety, security, efficiency, and profitability—plus, they reflect the expertise of over 4,000 industry experts around the world. As an ISA member, you'll be a part of this proud heritage.

You can even advance your career and professional visibility by contributing your expertise as a volunteer on a standards committee.

And remember, you'll get unlimited, free online viewing of ISA standards.

InTech magazine for the latest technology

Be a part of the organization that produces the automation field's top source of news, insight, and technical information, *InTech*.

This highly respected industry magazine is produced with the active involvement of automation's most-influential leaders, subject-matter experts, and educators—ISA members. No other publication has the resources and credibility that come from tens of thousands of dedicated professional members in all fields of automation.

You might even want to contribute to *InTech*. If you have insights, experiences, or ideas you think would interest your automation colleagues, and would like to share them, you may contact *InTech*'s editor and discuss your publishing possibilities.

One of the greatest benefits of being an ISA member is the vast wealth of technical knowledge and experience at your fingertips! Visit www.isa.org.
