# THE HITCHHIKER'S GUIDE TO OPERATIONS MANAGEMENT: ISA-95 BEST PRACTICES BOOK 1.0

by Charlie Gifford
Editor and Contributing Author

# TABLE OF CONTENTS

**Introduction** . . . . . **18**

**Chapter 1** . . . . . **23**
Recognizing a Historical Inflection Point in World Industry and Markets . . . . . 25
Goal of the ISA-95/MESA Best Practices Book Series . . . . . 25
Manufacturing Trends Relevant to the Role of ISA-95 . . . . . 26
DDSNs Create the Need for Interactive Twenty-First Century Manufacturing Model . . . . . 28
ISA-95 Blends SOA Approach into Manufacturing Operations Management . . . . . 31
"Post-Part 6 B2MML" Required to Meet MSA Requirement and End User Demand . . . . . 32
The ISA-95 Business Value: Low-Cost B2M Interfaces & Flexible Manufacturing Application Framework . . . . . 35
ISA-95 MAF Enables Twenty-first Century Lean Manufacturing Renaissance . . . . . 42
Conclusion . . . . . 44

**Chapter 2** . . . . . **47**
Overview . . . . . 49
A Common Vision . . . . . 49
ISA-95 . . . . . 52
- Brief History of ISA-95 (aka: IEC 62264) . . . . . 52
- Description of ISA-95 Structure . . . . . 54
- Current Status . . . . . 61
- Typical Application (examples) . . . . . 61

OAGIS . . . . . 66
- Brief History of OAGIS . . . . . 66
- Description of OAGIS Structure . . . . . 67
- Current Status . . . . . 68
- Typical Application (examples) . . . . . 69

ISA-95 OAGIS Comparison . . . . . 75
- Data Model Comparison . . . . . 78
- Messaging Support Comparison . . . . . 79

Extensibility Comparison . . . . . 80
- OAGIS Extensibility . . . . . 80
- ISA-95 Extensibility . . . . . 84

**Chapter 3** . . . . . **89**
ISA-95 . . . . . 92
Brief History of ISA-95 (aka: IEC 62264) . . . . . 92
Description of ISA-95 Structure. . . . . 94
OAGIS . . . . . 96
Related Manufacturing Integration Standards and Initiatives . . . . . 99
B2MML
BatchML . . . . . 100
EDI . . . . . 101
JAVA Message Services (JMS) . . . . . 102
MIMOSA / OSA-EAI. . . . . 102
MQTT . . . . . 103
OASIS / ebXML. . . . . 103
OPEN O&M . . . . . 105
OPC (and derivatives). . . . . 105
PSLX. . . . . 107
RossetaNet . . . . . 108
SCOR . . . . . 109
STEP. . . . . 112
Web Services/SOAP . . . . . 113
Conclusion . . . . . 115

**Chapter 4**. . . . . **119**
Introduction . . . . . 121
Method . . . . . 123
Overview. . . . . 123
Approach. . . . . 123
Steps in the ISA-95 Analysis . . . . . 126
Relationship between the Manufacturing Operation Management . . . . . 140
Models
List of User Requirements . . . . . 140
Next Steps
Future Architecture and Roadmap . . . . . 141
Information Flows . . . . . 142
Conclusion . . . . . 143

**Chapter 5** . . . . . **147**
Scope of Manufacturing Information Systems . . . . . 149
Overview . . . . . 149
ISA-88/95 Functional Framework . . . . . 151
Different views of Manufacturing Information Systems . . . . . 155
Decisional view . . . . . 155
Time View . . . . . 157
Capability View . . . . . 158
Operational View . . . . . 158
Process and Task Styles . . . . . 159
Roadmap to Smart Manufacturing Control . . . . . 160
Overview of Information Systems Life-cycle . . . . . 161
Functional vs. Technical Core Systems . . . . . 164
Functional Core System Development . . . . . 164
Overview . . . . . 164
Resource Modelling . . . . . 166
Functional Definition . . . . . 169
Equipment Control Definition . . . . . 173
Operation Control Definition . . . . . 173
Operation Management Control Definition . . . . . 174
Develop and Map the Technical Core System . . . . . 175
Conclusion . . . . . 176

**Chapter 6** . . . . . **179**
Introduction . . . . . 181
What Does the Standard Provide? . . . . . 181
Why Is There a Need To Define Implementation Best Practices? . . . . . 181
B2MML Applications . . . . . 182
What Kind of Information Needs To Be Exchanged? . . . . . 182
How Does One Determine the Context and Content of the Information that Needs To Be Exchanged? . . . . . 182
"Segment Concept Is ISA-95 Foundation" . . . . . 184
Work Flows . . . . . 186
Why Are Work Flows Complex? . . . . . 186
How Does One Describe Required Work Flows? . . . . . 187
Conclusion . . . . . 189

**Chapter 7** . . . . . **193**
Overview . . . . . 195
Defining Operations Metrics and KPIs. . . . . 195
Value Proposition. . . . . 196
Statement of Need (SON) Definition . . . . . 198
Critical Success Factors (CSFs). . . . . 199
Prioritizing Options using the Value Chart . . . . . 201
Defining and Developing Key Performance Indicators . . . . . 203
Collecting Data and Normalizing Manufacturing Information . . . . . 206
Periodic Review and Adjustment . . . . . 207
Conclusion . . . . . 207
Appendix 7-A; SCOR Performance Attributes and Level 1 Metrics . . . . . 210
Appendix 7-B: Asset Utilization Functional Analysis Example . . . . . 211
Appendix 7-C: KPI Priorities . . . . . 213
Appendix 7-D: Object Model Inter-Relations . . . . . 214
Appendix 7-E: Standardized Data Definition Framework . . . . . 215
Appendix 7-F: Actual versus Planned Production Volume: ISA-95 . . . . . 215
KPI Examples

**Chapter 8**. . . . . **219**
Executive Summary . . . . . 220
Technology to Bridge the GAP . . . . . 221
ISA-95 Introduction . . . . . 222
ISA-95 Scope. . . . . 223
ISA-95 Background . . . . . 224
B2MML: Implementing ANSI/ISA-95 . . . . . 225
Communication Mechanisms . . . . . 228
Summary . . . . . 229

**Chapter 9**. . . . . **233**
Introduction . . . . . 235
The MOM Change Management Process . . . . . 238
Characterizing the Change. . . . . 238
Communicating Change. . . . . 248
Conclusion . . . . . 253
Appendix 9-A: New Product Introduction (NPI) Example . . . . . 255
Appendix 9-B: New Inventory Management System (IMS) Example. . . . . 260
Appendix 9-C: Example Company Organizational Chart . . . . . 271
Appendix 9-D: Sample RACI Chart . . . . . 272
