CONTENTS

1 SCOPE ... 13
2 NORMATIVE REFERENCES ... 13
3 TERMS, DEFINITIONS AND ABBREVIATIONS ... 14
3.1 Terms and definitions ... 14
3.2 Abbreviations ... 17
4 ENTERPRISE-CONTROL SYSTEM INTEGRATION OVERVIEW ... 18
5 HIERARCHY MODELS ... 19
5.1 Hierarchy model introduction ... 19
5.2 Functional hierarchy ... 20
5.3 Role based equipment hierarchy ... 25
5.4 Physical asset equipment hierarchy ... 30
5.5 Decision hierarchy (Informative) ... 31
6 FUNCTIONAL DATA FLOW MODEL ... 32
6.1 Functional data flow model contents ... 32
6.2 Functional data flow model notation ... 32
6.3 Functional model ... 33
6.4 Functions ... 33
6.5 Information flows ... 40
7 MANUFACTURING OPERATIONS ... 47
7.1 Manufacturing operations management ... 47
7.2 Manufacturing operations management categories ... 47
7.3 Other activities within manufacturing operations management ... 48
7.4 Manufacturing operations management resources ... 49
8 INFORMATION MODEL ... 49
8.1 Model explanation ... 49
8.2 Manufacturing operations information ... 49
8.3 Segment relationships ... 50
8.4 Categories of production operations management information ... 51
9 COMPLETENESS, COMPLIANCE AND CONFORMANCE ... 63
9.1 Completeness ... 63
9.2 Compliance ... 63
9.3 Conformance ... 63
ANNEX A (INFORMATIVE) OTHER ENTERPRISE ACTIVITIES AFFECTING MANUFACTURING OPERATIONS ... 65
A.1 Other areas ... 65

A.2 Management of security ... 66
A.3 Management of information ... 66
A.4 Management of configuration ... 66
A.5 Management of documents ... 67
A.6 Management of regulatory compliance ... 68
A.7 Management of incidents and deviations ... 69
ANNEX B (INFORMATIVE) ASSOCIATED STANDARDS ... 71
B.1 Management of security ... 71
B.2 Management of configurations ... 72
B.3 Management of documentation ... 72
B.4 Management of regulatory compliance ... 74
B.5 Related standards on quality ... 75
ANNEX C (INFORMATIVE) BUSINESS DRIVERS AND KEY PERFORMANCE INDICATORS ... 77
C.1 Purpose ... 77
C.2 History ... 77
C.3 Drivers and issues ... 77
C.4 Value of standard to business ... 78
C.5 Vendor-independent exchange ... 78
C.6 Business drivers ... 79
C.7 Example business driver and information flow ... 81
C.8 Definitions ... 82
C.9 Data reconciliation ... 83
ANNEX D (INFORMATIVE) QUESTIONS AND ANSWERS ABOUT THIS STANDARD ... 85
D.1 Introduction ... 85
D.2 Purdue Reference Model (PRM) ... 85
D.3 Role based equipment hierarchy and physical asset hierarchy ... 85
D.4 Physical asset hierarchy ... 86
D.5 Chart of account hierarchy ... 86
D.6 Decision hierarchy ... 86
BIBLIOGRAPHY ... 87
