TABLE OF CONTENTS

1 Scope 11
2 References 11
2.1 Cited References 11
2.2 Relevant References 12
2.3 References of Interest 12
3 Definitions of Terms and Abbreviations 14
3.1 Definitions of Terms 14
3.2 Abbreviations 18
4 Historical Perspective 19
5 Value Proposition 20
6 Models 23
6.1 Procedure Automation Models 23
6.2 Physical Model 24
6.3 Procedure Requirements Model 26
6.4 Procedure Implementation Model 29
6.5 Model Summary 32
6.6 Collapsibility 33
6.7 Mapping Procedure Requirements to Implementation Modules 37
6.8 Implementation Modules 39
6.9 State-Based Control 46
6.10 Mapping Implementation Modules to BPCS Components 52
6.11 Alignment with Other Standards 54
6.12 Model Level Names Used in Various Industries 58

List of Tables

Table 1 Benefits derived from automating procedures 20
Table 2 Operator Command Cases 42
Table 3 Computer Command Cases 42
Table 4 Command, Perform, Verify Examples 43
Table 5 Sample Criteria for Notification Types for Automated Procedures 45
Table 6 Examples of Operator Notifications with Automated Procedures 45
Table 7 Examples of Physical Model Names 58
Table 8 Examples of Physical Model Level Names 59

List of Figures

Figure 1 ISA-106 Models Mapped Onto ISA-95 Functional Levels 23
Figure 2 Physical Model 24
Figure 3 Procedure Requirements Model 26
Figure 4 Procedure Implementation Model 29
Figure 5 Model Summary 32
Figure 6 Example of Collapsed Physical Models 33
Figure 7 Example of Different Collapsibility Techniques 34
Figure 8 Examples of Collapsibility 35
Figure 9 Mapping Procedure Requirements to Implementation Modules 37
Figure 10 Example of Implementation Module Contents 39
Figure 11 Example of Implementation Methods 41
Figure 12 Example State Transition Diagram 47
Figure 13 Process States and Modes of Operation 49
Figure 14 Procedures Mapped to Modes of Operation and Process States 50
Figure 15 Procedures Mapped to Implementation Modules 51
Figure 16 Interactions Between Implementation Modules at Different Physical Model Levels 51
Figure 17 Implementation Modules Mapped to BPCS Components 52
Figure 18 ISA-95 Functional Hierarchy 54
Figure 19 Example Role Based Equipment Hierarchy for the Continuous Process Industry 55
Figure 20 Comparison of ISA-95, ISA-88 and ISA-106 Physical Models and Equipment Hierarchy 56
Figure 21 ISA-95 Part 3 Production Operations Management Activity Model 57
