CONTENTS

1 Scope 19
2 ~~Normative~~ references 19
3 Terms and definitions 20
4 Equipment grouping and temperature classification 23
5 Flameproof joints 23
5.1 General requirements 23
5.2 Non-threaded joints 23
5.3 Threaded joints 30
5.4 Gaskets (including O-rings) 31
5.5 Equipment using capillaries 33
6 Cemented joints 34
6.1 General 34
6.2 Mechanical strength 34
6.3 Width of cemented joints 34
7 Operating rods 34
8 Supplementary requirements for shafts and bearings 34
8.1 Joints of shafts 34
8.2 Bearings 38
9 Light-transmitting parts 38
10 Breathing and draining devices which form part of a flameproof enclosure 39
10.1 Openings for breathing or draining 39
10.2 Composition limits 39
10.3 Dimensions 39
10.4 Elements with measurable paths 39
10.5 Elements with non-measurable paths 39
10.6 Removable devices 40
10.7 Mounting arrangements of the elements 40
10.8 Mechanical strength 40
10.9 Breathing devices and draining devices when used as Ex components 40
11 Fasteners, associated holes and blanking elements 44
12 Materials and mechanical strength of enclosures – Materials inside the enclosures 46
13 Entries for flameproof enclosures 47
13.1 Cable glands 49
13.2 Conduit sealing devices 49
13.3 Plugs and sockets ~~and cable couplers~~ 50
13.4 Bushings 50
14 Verification and tests 51
15 Type tests 52
15.1 Tests of ability of the enclosure to withstand pressure 53

15.2 Test for non-transmission of an internal ignition 56
15.3 (Reserved for future use) 60
15.4 Tests of flameproof enclosures with breathing and draining devices 60
16 Routine tests 63
~~17 Switchgear for group I~~ 64
~~17.1 Means of isolation~~ 64
~~17.2 Doors or covers~~ 65
18 Lampholders and lamp caps 65
18.1 Device preventing lamps working loose 65
18.2 Holders and caps for lamps with cylindrical caps 65
18.3 Holders for lamps with threaded caps 65
19 Non-metallic enclosures and non-metallic parts of enclosures 66
19.1 (Reserved for future use) 66
19.2 Special constructional requirements 66
19.3 Supplementary requirements for type tests 66
20 Marking 67
20.1 General 67
20.2 Caution and warning markings 67
20.3 Informative markings 67
Annex A (normative) Additional requirements for crimped ribbon elements and multiple screen elements of breathing and draining devices 69
Annex B (normative) Additional requirements for elements, with non-measurable paths, of breathing and draining devices 71
Annex C (normative) Additional requirements for flameproof entry devices 73
Annex D (~~normative~~ informative) Empty flameproof enclosures as Ex components 81
Annex E (normative) Cells and batteries used in flameproof “d” enclosures 85
Annex F (informative) Mechanical properties for screws and nuts 91
Annex G (informative) Introduction of an alternative risk assessment method encompassing “equipment protection levels” for Ex equipment 93
Annex H (informative) United States major deviations 99
Annex I (informative) National differences types noted in ANSI/ISA-60079-1 101
