2006 Events

Division Symposia

51st ISA Analysis Division Symposium

1–6 April 2006, Anaheim, CA

Sponsored by the Analysis Division

Topics of interest at this event will include: Chemical Analyzers, System Integration, Physical Properties, Maintenance, Spectroscopy, Standards, Chromatography, Gas Detectors, Sampling Systems, Emerging Technology, Validation, and Environment.

www.isa.org/analysisymp

52nd International Instrumentation Symposium

7–11 May 2006, Cleveland, OH

Cosponsored by the ISA Aerospace, Test Measurement, and Process Measurement and Control Divisions

The 52nd IIS will provide an opportunity to gain valuable technical information and training in the traditional areas of measurements/sensors, instrumentation systems, data and advanced system/sensor technology. www.isa.org/iissymp

16th Annual Joint POWID/EPRI Controls and Instrumentation Conference

4–9 June 2006, San Jose, CA

Sponsored by the POWID Division

The 16th Annual Joint POWID/EPRI Controls and Instrumentation Conference, also known as the 49th Annual ISA POWID Symposium, is dedicated to the electric power industry, control and instrumentation issues. www.isa.org/~powersymp

To participate in any Division symposia, please contact Rodney Jones at (919) 990-9418 or e-mail rjones@isa.org.

ISA Automation West

2–3 May 2006, Long Beach, CA

ISA Automation West 2006, returning to Long Beach after a successful 2004 event, offers over 100 exhibitors, daily keynote presentations from industry leaders, technical conference sessions, and a series of continuing education and training courses.

For more information about Automation West, please contact ISA at (919) 549-8411 or online at www.isa.org/autowest

ISA EXPO 2006

17–19 October 2006, Houston, TX

Access the world of automation and control at North America's leading automation event — ISA EXPO 2006.

For more information about ISA EXPO 2006, please contact ISA at (919) 549-8411 or online at www.isa.org/isaexpo2006.

Training and Technical Conference Events

NOx Emissions & Source Monitoring Technical Conference and Training

7–8 June 2006, San Jose, CA

Industry experts will present experiences with the measurement and control of low level NOx emissions, new concepts for NOx reduction techniques, and innovative monitoring systems. Presenters will participate in Q&A sessions and panel discussions to answer your questions.

Fugitive Emissions – LDAR Symposium and Training

13–15 June, 2006, Houston, TX

ISA holds this event to help industrial companies understand the laws, regulations, and techniques surrounding emissions control.

Process Analytical Technology Training and Conference

Fall 2006, RTP, NC

The ISA Process Analytical Technology (PAT) Conference will focus on systems for designing, analyzing, and controlling manufacturing through timely measurement of critical quality and performance attributes of raw and in-process materials with the goal of ensuring final product quality.

To participate in any Division symposia, please contact Rodney Jones at (919) 990-9418 or e-mail rjones@isa.org.
