

EXPO 2007

2-4 October
Reliant Center, Houston, TX

Software Solutions Pavilion

Showcasing Manufacturing's Soft Side

The **Software Solutions Pavilion** debuts at ISA EXPO 2007 as a focal point for vendors offering industrial and manufacturing software. Included are software solutions for:

- Shop Floor Data Collection
- Automation
- Process Control
- Process Improvement
- Security
- Calibration Management
- Data Acquisition
- SCADA and Analysis Software
- Simulation Software
- HMI Software
- Interoperability
- Maintenance Management.

Exhibit in the Manufacturing Software Solutions area and talk directly with buyers and key personnel who influence the purchase of software products to help their operations run with security, reliability, and efficiency.
