

Gregory K. McMillan is a retired Senior Fellow from Solutia, Inc. During his 33 year career with Monsanto Company and its spin off Solutia, Inc., he specialized in improving loop performance, controller tuning, valve dynamics, opportunity assessments, dynamic simulation, fermentor control pH control, and reactor control. Greg is the author of numerous articles and over a dozen books, including *Good Tuning – A Pocket Guide*, the best seller *Advanced Control Unleashed*, and his newest book *Retirement Talk*. He has contributed to several handbooks, is the editor of the *Process/Industrial Instrumentation and Controls*, and is a columnist for Control Magazine. He is one of InTech's 50 most influential industry innovators for advancing automation and control technologies.

Greg is an ISA Fellow and received the ISA "Kermit Fischer Environmental" Award for pH control in 1991, and was one of the first inductees into the Control Magazine "Process Automation Hall of Fame" in 2001.

He received his M.S. from University of Missouri – Rolla in 1976 in Electrical Engineering (Control Theory). Greg is a professor at Washington University in Saint Louis, Missouri and is a consultant through EDP Contract Services in Austin, Texas.
