

EXPO 2007

2-4 October
Reliant Center, Houston, TX

Sensors Fair

Sensors Fair has become a cornerstone of ISA EXPO, commanding nearly 10,000 square feet of exhibit space showcasing sensors, transducers, detectors and related technologies for process and discrete automation.

Sensors Fair is strategically located in a high profile area at ISA EXPO 2007. Products and solutions to be displayed include:

- Temperature
- Pressure
- Level
- Flow
- Analytical
- Gas
- Environmental
- Force
- Humidity
- Moisture
- Vibration
- Infrared
- Acoustic
- Proximity
- Positioning
- Data Logging
- Sensor Software Solutions
- and much more!

Added value:

- Spotlighted on ISA EXPO 2007 Web site and in the Official Show Program
- Special distinction for your company in the Official Show Program
- On-site signage and distinctive carpet color guide attendees to you
- Company listing in pre-show issues of *InTech*
- Product release in show issue of *InTech*
