

The Best Advertising Makes All the Difference

2008 InTech Editorial Planner

	January	February	March	April	May	June	July	August	September	October	November	December	
Cover Story	Automation forecast: InTech market study	Intrinsic safety	Batch it up	Wireless offshore: SCADA; InTech market study	Automating food manufacturing	Power: Expanding the legacy	Alternative fuels and automation	Ethernet in the plant: InTech market study	Mesh networking	Refinery automation	Cover story: Food & beverage/ packaging	Wireless mean data acquisition or control?	Cover Story
Process Automation control systems, instrumentation, sensing, and analysis	Non-invasive flow	Chemical security regulations	PAT on the back	Automation runs the rig	Explosion proofing the plant	Integrating EDDL/FDT	Corrosion: A process parameter	Analyzing the power operation	EXPO exhibit preview	Oil sands and automation	Alternative energy	Biotech instrumentation	Process Automation control systems, instrumentation, sensing, and analysis
Factory Automation machine control, vision, and discrete sensing	Ethernet in the factory	Vision in automotive	Machine control	Mechatronics at work	Robotics in manufacturing	Control for industrial motion	Security	Discrete I/O	Motors & drives	Salary survey: InTech market study	PLCs vs. PACs means engineers win	Collaboration means communication	Factory Automation machine control, vision, and discrete sensing
System Integration hardware, software, networking, retrofits, and components	Wireless integration	Retrofit I&C	UPS to protect data	Selecting an integrator	Integrating continuous emissions monitoring	Securing the firewall	Outsourcing	Migration	Bus communications	Integrating standards	Networking and communications	Safety in/danger out	System Integration hardware, software, networking, retrofits, and components
Automation IT software and communications interface	Asset management	Predictive maintenance	Workforce development: InTech market study	Interoperability throughout the enterprise	RFID for software	R&D leads to increased productivity	Make to order	People: IT & engineers	Alarm management	Preventive maintenance	Model predictive control	Product lifecycle management	Automation IT software and communications interface
Automation Basics	HMI; Machine vision	Pressure; Lean manufacturing	Signal conditioning; Pneumatics	Level; Light curtains	Flow; Robotics	Surge protection; Mechatronics	Temperature; Proximity sensors	Valves; PLCs	Calibration; RFID	Wireless; Torque	Data acquisition; Electric motors	Moisture and humidity; Packaging	Automation Basics
Product Spotlight	HMI	Pressure	Signal conditioning; Pneumatics	Level devices	Flow	Surge protection/UPS	Temperature	Valves	Calibration		Data acquisition	Moisture and humidity	Product Spotlight
Special Section		Flow/Level	Networking	Wireless		Temperature/Pressure			Data acquisition and I/O		Automation interface		Special Section
ISA EXPO 2008 Coverage					Preview program		Advance program	Exhibitor spotlight and Founders circle awards	EXPO exhibit preview	On-site issue (all attendees)		EXPO wrap-up (all attendees)	ISA EXPO 2008 Coverage
Bonus Distribution			Interphex, WBF	Hannover Fair; OTC; CSIA	15,000	POWID, American Control Conference	15,000	15,000		ISA EXPO 2008; Weftec	Pack Expo; Rockwell Automation Fair		Bonus Distribution
Ad Insertion Deadline	3 December 2007	7 January 2008	7 February 2008	7 March 2008	7 April 2008	7 May 2008	6 June 2008	7 July 2008	8 August 2008	5 September 2008	6 October 2008	4 November 2008	Ad Insertion Deadline
Ad Materials Deadline	10 December 2007	14 January 2008	14 February 2008	14 March 2008	14 April 2008	12 May 2008	13 June 2008	14 July 2008	15 August 2008	11 September 2008	13 October 2008	10 November 2008	Ad Materials Deadline

Columns and departments give you more opportunities to place your message in a highly targeted and high-quality editorial environment:
