ISA EXPO 2009 / 6 - 8 OCTOBER

FREEMAN machinery rates

MACHINERY RATES

Machinery rates include the unloading of machinery from inbound carriers, delivery of machinery to exhibitor's booth space, and the loading of machinery onto outbound carriers at close of show. Machinery rates will be billed based on the weight per shipment. The shipment weight will be rounded to the next 100 pounds. Each 100 pounds is considered one "cwt."

Van or closed truck shipments of loose or unskidded machinery will be billed an additional handling charge.

On the date assigned for the arrival of machinery, the exhibitor must have a representative at the show who shall:

Mark the floor to show exact location of each machine before it arrives

Be present during the period of machine spotting

Advise rigging crew on use of exhibitor's prerigging methods and accessories

When applicable, additional charges will be incurred:

1. If machines arrive in containers; and if blocking, reblocking, unstuffing, or retarping is involved; if it is necessary to unskid machines before removing from container, labor and equipment charges will be added to the stated rates.
2. If sides and/or top of truck have to be removed by contractor; if machines are crated or skids require removal; if spotting of machines or handling of crates to and from storage area is required, labor and equipment charges will be added to the stated rates.
3. If the exhibitor representative does not comply with shipping instructions, machines will be placed in the booth without spotting. For spotting later, equipment and labor rates will apply.
4. Freeman will charge exhibitors on a time and material basis for the cost involved in cutting up and dismantling crates, skids and large pieces of lumber left in the storage area. If you do not intend to save your crates and skids, have your labor crew cut them up during the installation period.
5. Certified weight tickets are required. Separate weight for Display Material and Machinery Equipment is required. There are different rates for machinery equipment if properly identified on the bill of lading. If the weight is not separated and/or materials are not identified properly, the Display rate will prevail.

* If the weight of machinery exceeds 15,000 lbs, please inform Freeman Exhibitor Services at 713 433-2400.

MACHINERY RECEIVED AT SHOW SITE

Item #	Part #	Description	Price per CWT
514100		Machinery - up to 5,000 # ROUND TRIP	\$ 26.50
514200		Machinery - 5,001 - 10,000 # ROUND TRIP	\$ 25.50
514300		Machinery - 10,001 - 15,000 # ROUND TRIP	\$ 24.45
514400		Machinery - 15,001 - 20,000 # ROUND TRIP	\$ 23.40
514500		Machinery - 20,001 - 30,000 # ROUND TRIP	\$ 22.40
514600		Machinery - 30,001 - Over # ROUND TRIP	\$ 21.30

NOTE: Above rates based on cwt per shipment.
