

## ISA Technical Divisions

When you join ISA, you can also join two ISA Technical Divisions for **FREE**, one from the Industries and Sciences Department and one from the Automation and Technology Department. Membership in ISA Technical Divisions brings you closer to others who share your industry and technical interests.

### Industries and Sciences Department

- Aerospace Industries
- Chemical & Petroleum Industries
- Construction & Design
- Food & Pharmaceutical Industries
- Mining & Metals Industries
- Power Industry
- Pulp & Paper Industry
- Water & Wastewater Industries

### Automation and Technology Department

- Analysis
- Automatic Control Systems
- Computer Technology
- Management
- Process Measurement & Control
- Robotics & Expert Systems
- Safety
- Telemetry & Communications
- Test Measurement

### Technical Interest Groups (Free to all ISA Members)

- Glass and Ceramic Interest Group
- Textile Technical Interest Group

### Division Web Pages

Here you'll find free technical papers, the latest newsletter, information on Division symposia, items of interest to Members, and Division contacts.

### E-Mail Discussion Lists

Exchange information with other Members. Ask for advice and get answers from around the world.

## Member Benefits

- **Free Viewing of ISA Standards**  
As an ISA Member, you can view ISA Standards online free of charge
- **Free Web Seminars**  
Access to over 40 online pre-recorded web seminars covering today's hottest topics
- **Free Technical Papers**  
Unlimited downloads of ISA's library of over 2,500 technical papers published at ISA conferences and symposia
- **Free ISA Transactions**  
Online access to current and past articles covering the latest advances in the science and engineering of measurement and automation
- **InTech Magazine**  
Free qualified subscription to *InTech*, the premier magazine for automation professionals
- **Free Technical Division Membership**  
Join two Divisions at no charge and enjoy a network of automation professionals who share your technical interests
- **Leadership Development**  
Develop your leadership skills by participating in ISA's free online Leadership Development Certificate Program
- **Mentoring Program**  
Connect online with, and learn from, experienced professionals and practitioners
- **Discounts**  
Significant Member discounts on ISA products, training and event registration
- **and much more**  
Go to [www.isa.org/memberbenefits](http://www.isa.org/memberbenefits) for more information

## Join ISA... and enjoy exclusive Member benefits.

When you join ISA, the International Society of Automation, you'll be connected to a worldwide network of technical and professional knowledge that can help propel your career or business to new heights. Our exclusive Member benefits connect you to the most timely and useful information in the automation field.

Take advantage of ISA's outstanding reputation for technical information on all aspects of automation. With our expertise at your fingertips, you have a wealth of resources to explore.

ISA is recognized worldwide for:

- Standards
- Certification
- Education & Training
- Publishing
- Conferences & Exhibitions

If you have questions about ISA membership at any time, please contact ISA's friendly staff for fast, courteous service.

- Phone: (919) 549-8411
- Fax: (919) 549-8288
- E-mail: [info@isa.org](mailto:info@isa.org)
- Online: [www.isa.org](http://www.isa.org)

# ISA is recognized worldwide for...

## Standards

Join ISA and you can view ISA Standards online free of charge for your personal use.

ISA is recognized globally for the development of consensus industry standards for automation technologies and applications. This includes such key areas as security, safety, batch control, enterprise integration, wireless communications, and traditional instrumentation, measurement, and control. Through the dedicated efforts of industry experts from around the world, ISA has published more than 150 standards, recommended practices, and technical reports for industry use.

**One of the greatest benefits of being an ISA Member is the vast wealth of technical knowledge and experience at your fingertips!**

## Join today!

Join now at [www.isa.org/join](http://www.isa.org/join) or call (919) 549-8411 and discover the other incredible benefits that await you!

## Certification

ISA certification provides a credible opportunity for professionals to stand out from the crowd and be recognized. ISA currently offers two certification programs: Certified Automation Professional® (CAP®) and Certified Control Systems Technician® (CCST®).

ISA certification programs provide:

- a non-biased, third-party, objective assessment and confirmation of an employee's skills
- a mechanism for an employer to ensure a high level of skill and competency of employees
- a standard tool to qualify new hires and contractors and that can also be used by employers to establish a pay system
- encouragement of life-long learning and professional development

### Certification Programs

The Certified Automation Professional (CAP) program recognizes specialized education, training, and knowledge in automation.

The Certified Control Systems Technician (CCST) program helps automation and control technicians document their skills and experience and enhance their professional standing and marketability.

### Additional Resource

**Control Systems Engineering (CSE) Exam Preparation.** ISA helps prepare automation and control engineers for the Control Systems Engineering (CSE) license exam with a study guide, a three-day exam review course, and a web seminar series.

## Education & Training

ISA is recognized worldwide as a leader in non-biased, vendor-neutral education and training programs for automation professionals. Industry professionals—whether experienced engineers, practicing technicians, or newcomers to automation—can hone their skills at ISA's regional training centers, through onsite training programs at their companies, or via distance education.

ISA offers hands-on training and career development curricula including more than 100 courses led by expert instructors with real-world experience.

Members can take advantage of ISA's distance learning options available as self-paced online courses, live web-based seminars, videos, and CD-ROM courses at a discounted rate. ISA Members also have free access to over 40 pre-recorded web seminars on today's important topics!

## Conferences & Exhibits

ISA hosts several annual events ranging in size from one-day technical conferences focused on specific industry issues, to conferences spanning several days covering a multitude of topics and industries. Attendees of these events gain access to the latest product developments, real-world scenarios, and presentations delivered by experts, peers, and industry leaders. These events provide quality continuing education to automation professionals and provide businesses an unparalleled opportunity to maximize their productivity and ensure their long-term growth. Gain access to these great automation events for less when you use your Member discount!

### ISA Automation Week

ISA Automation Week is an intensive educational and applications-based technical conference offering the latest industry developments and standards in key manufacturing disciplines like automation, energy and power, green manufacturing, instrumentation and process control, safety and security, systems and enterprise integration, and wireless, networking, and industrial communications. Vendor exhibits will complement the knowledge-based event and offer attendees their latest product developments.

### Technical Conferences and Symposia

ISA's Technical Conferences and Symposia are a great place to meet like-minded professionals in your industry, and

they also provide a venue for you to get published. Hear speakers discuss the latest trends and technologies, earn Professional Development Hours, take a training class and earn Continuing Education Units, or network with peers and experts. Your level of participation is up to you as a Member: attend, present a paper, or help organize the event!

## Publishing

ISA is the authoritative publisher of books, magazines, and technical journals that cover the automation profession. Written and reviewed by experts, these publications keep automation professionals fully informed about the latest technical developments, applications, trends, and standards. ISA Members receive significant discounts on all purchases, including books, conference proceedings, technical papers, software, and more. ISA's print and online magazines feature the latest industry and business news impacting automation.

### InTech

All ISA Members automatically receive a free subscription to the bi-monthly magazine, *InTech*. This outstanding magazine, which is also available in digital format, delivers the latest technological developments, emerging trends, and recent industry news. Members also receive the e-mail newsletter *Automation Weekly*. Plus, *InTech* Online provides daily breaking news, additional articles, and blogs.

### ISA Technical Papers

As an ISA Member, you have exclusive free access to over 2,500 technical papers from ISA conferences and symposia.

### ISA Directory of Automation

This annual compilation lists manufacturers and distributors of automation products and services.

### ISA Transactions

*ISA Transactions* is provided online free of charge to all Members. This peer-reviewed journal will keep you up-to-date on the science and engineering of measurement and automation.
