

Now you have better opportunities to enhance your career

Congratulations on taking a career-boosting professional step by joining the ISA Power Industry Division (POWID). As a Member of POWID, you benefit in two ways. First, you will have the opportunity to network with your industry peers and to share your expertise by volunteering for a variety of POWID forums for knowledge sharing. Second, you will have access to the many benefits exclusive to POWID Members such as:

- The ISA POWID newsletter *What's Watt?*
- The POWID Division list serve
- The POWID Division membership roster
- Opportunities to review technical papers
- Opportunities to attend annual POWID Division meetings
- Opportunities to attend POWID social functions at events

Power Industry Division!

Setting the Standard for Automation™

How to get the most out of your *Division Membership*

The Power Industry Division (also known as POWID) is organized within the Industry and Sciences Department of ISA. Our goal is to provide a means for information exchange among engineers, scientists, technicians, students/universities, and management involved in instrumentation and control relating to the production of electricity.

POWID membership aligns your personal interests with your professional goals. You have a wealth of industry knowledge at your fingertips and are on the cutting edge of technology and power developments. In addition, you now have the opportunity to share your experiences as well as the opportunity to learn from your peers.

As a POWID Member, you have joined one of the largest Divisions within ISA. The following are just some of the numerous benefits and professional opportunities offered by the POWID Division:

Annual POWID Symposium. This annual event has taken place for over 50 years. It focuses on relevant issues and concerns of the power industry, and features expert speakers and exhibits. As a POWID Symposium participant, you will be eligible to receive Professional Development Hours.

Other POWID-sponsored Events. Sharpen your leadership skills by helping plan and conduct various annual POWID events such as meetings, luncheons, banquets, and industry award ceremonies.

Scholarships and Awards. POWID annually awards the Robert N. Hubby scholarship (\$4,000) to a student currently enrolled in an undergraduate program in a Power Industry related field, and also provides awards to power plants and individuals advancing instrumentation and control within the power industry. All of POWID award applications can be found on the POWID web page at www.isa.org/divisions/powid.

ISA EXPO. Support ISA EXPO by submitting industry papers, reviewing papers, and developing sessions.

Training. The annual I&C (Instruments and Controls) Interest Group Meeting is held in conjunction with the annual Joint ISA POWID/EPRI (Electric Power Research Institute) Controls and Instrumentation Conference. This joint programming represents a significant commitment to connect research sponsored by EPRI with the technical deliberations of the ISA Power Industry Division.

Standards. Be part of an active group that contributes to the development of power industry standards by working closely with ISA Standards Committees ISA-SP67, Nuclear Power Plant Standards, and ISA-SP77, Fossil Power Plant Standards, in developing instrumentation and control standards for power plants.

Recognition. POWID has won ISA's Outstanding Division Award for 16 years in a row (1991-2007).

Valuable Information Resource. As a service to its Members, POWID provides:

- Two to three comprehensive industry newsletters per year featuring articles and papers from POWID Division Members and symposium participants.
- Access to the POWID website, which has links to industry technical papers, web seminars, and a list serve of industry peers.

Invite your colleagues to join POWID

They will gain access to so much professional knowledge when they join you and the 16,000 ISA Members who have already realized the value of Technical Division membership. Your colleagues can learn more about joining POWID at www.isa.org/divisions/powid or by calling (919) 549-8411.

If they are not already ISA Members, your colleagues can join at www.isa.org/join or by calling (919) 549-8411.
