

The following message is from ISA District 2 Vice President, Alex Habib.

Fellow section leaders-

Greetings and best wishes for a healthy and prosperous 2007!

I look forward to meeting with you and supporting your ISA activities and initiatives. In addition to my new District activities, I am still very much engaged with my local section. This means we share the same types of challenges as well as the personal satisfaction knowing that we are doing our small part to improve our profession. Attached for review is the latest edition of our District 2 News. Please take a few minutes to review and feel free to distribute within your section and post on your section website.

The two key items are:

Honors & Awards - we have many section members that would qualify for service or technical award recognition. Please give this some thought and work with your H&C Chair to recognize some deserving section members for their contributions to our organization or the profession.

District 2 Leadership Conference - Please mark your calendars for April 13th and 14th in Baltimore, MD. This is also a great spot to bring the family, with a lot of fun activities. Please mark your calendars now and provide budget support to send your new leaders. There will be updates on resources and brainstorming on how to make our section efforts more successful and fun! Agenda details will follow.

See more information about Honors & Awards and the District 2 Leadership Conference on the District 2 web site. Please copy and paste the following link in the address line of your browser to access the page:

<http://www.isa.org/MSTemplate.cfm?MicrositeID=559&CommitteeID=5251>

I am also still looking for some help at the District level. Nothing too consuming, but I would like to get as many sections involved as possible. If you are interested, please give me a call. Also feel free to invite me to attend any of your special events or meetings.

I look forward to meeting and working with each of you!

Best regards,

Alex Habib, PE

District 2 VP
