

# Raman Spectroscopy

by

**Gary Lang**

**Rosemount Analytical**

## **Program:**

In 1928, Sir C.V. Raman documented the phenomenon of inelastic light scattering. It has been a challenge to commercialize this discovery for industrial use. Recently, with advances in the computers and near-infrared lasers, it has begun to be commercialized. Our speaker will present Technique, Technology Requirements, and Applications of Process Raman Spectroscopy.

## **Speaker:**

Gary Lang is the Worldwide Business Manger for Advanced Technology Products at Rosemount Analytical. Previously, Mr. Lang worked for Foxboro Analytical and Beckman Instruments in sales. Prior to joining Rosemount Analytical, Mr. Lang commercialized new products with FIATron Systems as an independent consultant. He has a BS in chemistry and an MBA in marketing.

## **Meeting Notes:**

Date: Wednesday, January 13, 1999.

Place: Fluor Daniel, Room CN-7 (37-7), 3353 Michelson Dr., Irvine.

Times: Social Hour – 5:00 PM

Technical Program – 5:50 PM

*(Complimentary hors d'oeuvres and no host bar)*

## **Sponsors for the Meeting:**

## **Upcoming Programs:**
