

*Please join the Los Angeles and Orange County Sections of ISA
on Tuesday, September 21st*

for a tour of the

Robert S. Diemer Filtration Plant

3972 Valley View Avenue, Yorba Linda, CA

The Plant:

The Diemer Filtration Plant is located approximately 30 miles southeast of Los Angeles in the city of Yorba Linda, California. The filtration plant, which has been in operation since 1963, is the operational headquarters for the Orange County Branch.

The plant operates continuously to provide treated water to the following member agencies: City of Anaheim, City of Fullerton, City of Long Beach, City of Santa Ana, Central Basin Municipal Water District, Coastal Municipal Water District, Municipal Water District of Orange County and West Basin Municipal Water District.

The filtration plant provides full conventional treatment consisting of chemical addition, rapid mix, flocculation, sedimentation and gravity dual media filters. The reclamation of water used for filter backwash is reclaimed by two separate reclamation facilities with a combined maximum capacity of 32 mgd.

Directions:

Take Valley View north of Imperial to the end. You really can't miss it!!!

Here is a map of Polly's where the party begins:

[map of Polly's is being forwarded to Kathy Angel by Robin K.]
