Human Interface Supervision Systems

By Kai Michels, Siemens

Presentation:

- The concept of HISS.
- The philosophy of HISS and the benefits for the user.
- Recent developments and the future of HISS (condition based maintenance, automatic scheduling of maintenance personnel and plant supervision via Internet.)
- A demonstration of plant supervision of a natural gas facility in northern Germany will be shown, time permitting.

Speaker: Mr. Kai Michels

Kai Michels received Masters Degrees in electrical engineering and computer science from the Technical University of Braunschweig, Germany. He also worked on fuzzy systems at the University's Institute for Control Engineering, where he earned his Ph.D. Kai joined Siemens AG in 1997 and is currently product manager of HISS.
