Fiber Optics Presentation

By Damon Semprebon
Puroptix Optics

Presentation:

Damon will discuss basics and fundamentals of fiber optics and optical networking, which is a cost-effective way of moving huge amounts of data. He will also discuss the problems and solutions associated with fiber optics.

Due to the technical and cost benefits it has to offer, fiber optics networking is becoming extremely important and desirable in modern plant design.

Speaker:

Damon K. Semprebon is the Vice President Engineering at Puroptix. He served as Director of Engineering at Tiernan Communications from 1996 until joining the Puroptix team this year. While working at Tiernan, Mr. Semprebon led teams developing MPEG encoders and IRDs. Prior to joining Tiernan, Mr. Semprebon held senior engineering positions at ComStream Corporation, a leading manufacturer of satellite communications systems.

Sponsors:

- Rotork
- ITT Barton Sales
- Dresser Flow Control

Meeting Notes:

Check out our web site: www.isa.org/~oranc/

DATE: Wednesday, October 9, 2002

PLACE: Park Place CN-150 (37-150), 3353 Michelson Dr., Irvine, CA 92612

TIME: Social hour—5:00 p.m. ■ Technical Program—5:45 p.m.

Mark your calendar

December 7:

*Christmas Dinner and Awards Ceremony
The Petroleum Club in Long Beach
Tickets: \$38.00/person*

Table of 8: \$250.00

Table of 9: \$280.00

Table of 10: \$310.00
