A Message From.... YOUR PRESIDENT

I am delighted to see the interest level in our past few meetings, which has been approaching standing room only audience. Our last month's meeting at Cal State Fullerton's ISA student section was a big hit. The aspiring engineering graduates were too eager to pass an opportunity to network with the industry brethren and get a feel for the job market. Martin Neil, Craig Lantermier and Don Zee gave three very different perspective to our student audience.

John Gong has been busy arranging an Educational Seminar on Saturday April 26th. We hope that you will make the investment to learn about the BUS technology and make it an even bigger success than our previous educational seminars.

Arguably, water has been Southern California's most precious resource. Our past several presentations have focused on water including water cycle in power plants, desalination process and now the plant tour of Irvine Ranch Water District's Michelson Water Reclamation plant. The plant engineer will escort our inquisitive community leading to a very rewarding experience. Don't miss!

As usual, if you have any suggestions on topics for upcoming meeting, please let me know.

Raj Adani
