**Career Opportunities:**

**Control System Application Specialist  
Birmingham, Alabama**

Based in Atlanta, Southern Company is one of the largest generators of electricity in the nation, serving both regulated and competitive markets across the southeastern United States. We participate in all phases of the electric utility business with more than 42,000 megawatts of electric generating capacity and a grid of transmission and distribution lines that would more than circle the earth. Southern Company and its subsidiaries have been serving the Southeast for more than 100 years.

We have an exciting Birmingham based opportunity within our I&C Design group. The Application Specialist opportunity can be found, along with other Southern Company openings, on our careers website. Simply log onto <http://careers.southerncompany.com> and reference the above job name; other opportunities at Southern Company are posted regularly so the website is a good one to check periodically.

Below is a brief summary of the type of job experience we are looking for in a successful candidate for this particular opportunity:

**Desired Job Experience:**

Extensive experience and knowledge is required in process controls and control strategies, boilers and auxiliary equipment, and DCS systems. Knowledge of wall fired coal burning drum boilers and associated control strategies is desired (corner-fired and supercritical experience would be a plus). Experience is required to lead the finalization of P&IDs, develop I/O list, partition and assign DCS I/O and develop and plan process control strategies. Extensive experience working directly with the initial control system design, application programming, configuration, and on-site installation and commissioning activities is desired. Experience and knowledge of controls associated with boiler combustion, balanced draft conversion, selective catalytic reduction and flue gas desulphurization equipment is a plus.

If you have this type of experience and you are looking for an opportunity with a premier energy company we want to hear from you.
