### ISA PCS is *THE* Process Event for Industry Professionals

This year's event has been expanded to deliver more comprehensive technical content to a broader range of professionals in the energy processing and process manufacturing industries.

ISA PCS 2018—Process Industry Event combines the technical expertise, knowledge and experience of ISA—the global leader in process automation standards, training and education—along with two other leading engineering and manufacturing associations:

- The Institute of Electrical and Electronics Engineers (IEEE), the world's largest technical professional organization for the advancement of technology.
- The society for Maintenance & Reliability Professionals (SMRP), an association committed to improving plant maintenance, reliability, and physical asset management.
