Symposium2015

Joint Conference with
MFPT

Joint Conference Call for Papers

**From Sensors to Sense and Everything in Between
61st International Instrumentation Symposium
and MFPT 2015 Joint Conference**

The Westin • Huntsville, Alabama • 12–14 May 2015

The **61st International Instrumentation Symposium** is sponsored jointly by the Aerospace Industries, Test Measurement, and Process Measurement and Controls Divisions of ISA. It is recognized internationally as the outstanding forum for discussion of new and innovative instrumentation techniques, development, and applications. The symposium will include paper sessions, short courses, workshops, and tutorials. For the latest list of short courses, workshops, and tutorials refer to the ISA website. Papers will be considered for publication in the ISA technical journal.

Guidelines for Submission:

- All Authors/Speakers in attendance must pay registration fee
- 500 word (max) abstract shall be submitted electronically in English
- Presentations must be on the official ISA Symposium template
- Papers accepted for publication will require completion of the ISA Rights & Responsibilities form

The lead author is the main contact. Submit your abstract at:
www.xcdsystem.com/iis

Deadlines For Papers: Abstract..... 15 December 2014
Full draft..... 23 January 2015
Final paper-hard copy 23 February 2015

For Presentations: PowerPoint presentation only 8 May 2015

For additional information, contact:

Kash Behdinan, *General Chair*, 661-654-7196, kbehdinan@chevron.com
Aubri Hanson, *Technical Program Chair*, 850-769-1551 Ext. 4868, Ahanson@gulfcoast.edu
Ruth Sikorski, *Co-Program Chair*, 937-255-7268, Ruth.Sikorski@us.af.mil

Topics include but are not limited to:

- Instrumentation
 - Sensors
 - Transducers
 - Wireless, Electromagnetic, & RF
 - Remote Sensing
 - Environmental Monitoring
 - Laser and Electro-Optics
 - Power Systems, Radiation, & Nuclear
- Data Systems
 - Measurement Standards
 - Automated Measurement Techniques
- Communications
 - Telemetry
 - DCS, SCADA
 - Industrial Instrumentation
- Turbine Engine Testing
 - Tip Timing Technologies, Tip Clearance
 - Hot Section Gas Temperature
- Platform Testing
- Test Facilities
- Metrology
- Cyber and Homeland Security
- Safety Instrumented Systems
- Process Measurement and Control
- Control System Instrumentation
- Student Paper Sessions

Sponsored by

ISA's Aerospace Industries (ASD), Test Measurements (TMD), and Process Measurement and Control (PMCD) Divisions, in conjunction with the participation of the Propulsion Instrumentation Working Group (PIWG), collocated with the 2015 MFPT Conference (www.mfpt.org)

Setting the Standard for Automation™
