News Flash

Special election has been announced for Tuesday's meeting.

Beth Ann Ashcraft has stepped up and accepted the nomination for the section's open Vice President's position.

Plan to attend and show her a sounding round of support!

November Meeting Topic

A Wireless Journey - When U Come to a Fork in the Road - Take It!!

It's always about the choices. The technical presentation this month will take us on a journey into the technology of wireless itself. This will include the different frequencies on the free band, an antenna tutorial and wireless security. No product will be specifically addressed but all wireless product regardless of manufacturer has to operate under the rules of the technology. Therefore, the presentation will show the engineer or technician how to make the right choices for his application and present the needed knowledge base to design his system.

Presenter:

Jim Massey

Project Engineer/Phoenix Contact, Inc.

Jim is an ISA member and an active guest speaker at local ISA and IEEE technical meetings covering topics such as Grounding & Bonding, Surge Protection, Wireless Communications and Fiber Optic Technology. After completing a tour of duty in the US Army, Jim studied Electrical Engineering Technology at The University of Houston and Marketing at Northwest Missouri State University.

Jim joined the Phoenix Contact team in 1992 and today is a Project Engineer out of Houston, Texas working with the engineering teams of major corporations and engineering firms. He has over 35 years of application experience in the Process, Oil & Gas, Pipeline, Water/Wastewater, and Transportation industries.

Jim and Mandy Burden from Phoenix Contact have been very strong supporters of the section and we welcome their ongoing support! Jim is a good speaker and very knowledgeable in many areas. Phoenix Contact is sponsoring the meeting. Come and enjoy a Great Evening with colleagues from the automation community!!
