### 2020 Subsection Officers

**Chairman**  
Rocky Marlatt  
RBI Solutions  
(281) 208-8898  
rmarlatt@rbisolutions.com

**Vice Chairman**  
Open

**Past Chairman**  
Wes Carter  
Shell Global Solutions  
(281) 544-7723  
wesley.carter@shell.com

**Program Chairman**  
Butch Dailey  
(281) 433-0569  
bdailey@sbcglobal.net

**Publicity Chairman**  
Kevin Douglas  
Emerson Process Management  
(281) 879-3902  
kevin.douglas@emerson.com

**Secretary/Treasurer**  
Dan Podkulski  
ExxonMobil  
(281) 834-2833  
dan.e.podkulski@exxonmobil.com

**Newsletter Editor**  
Lance Cizek  
Horiba  
(346) 774-7808  
lance.cizek@horiba.com

**Membership Chairman**  
Kevin Brodnik  
Orbital Gas Systems  
(832) 862-9501  
kbrodnik@orbitalgas.com

**Activities Chairman**  
Open

**Subsection Website:**  
www.isa.org/houston

### 2020 Division Officers

**Director**  
Stuart Simmonds  
Novatech  
stuart.simmonds@novatech.ca

**Past Director**  
Cindy Cauthen  
Siemens  
(832) 390-9212  
cynthia.cauthen@siemens.com

**Treasurer**  
Dale Merriman  
MerTech Incorporated  
(713) 978-7765  
dcmerriman@mertechinc.com

**Publicity Chairman**  
Rod Merz  
Ametek  
(403) 235-8440  
rod.merz@ametek.com

**Education Chairman**  
JC Arenes  
Novatech  
(416) 994-0121  
arenescj@novatech.ca

**Awards and Honors Chairman**  
Jerry Clemons  
ABB  
jerry.clemons@us.abb.com

**Newsletter Editor**  
Stuart Simmonds  
Novatech  
stuart.simmonds@novatech.ca

**AD Membership Chairman**  
Ian Verhappen  
CIMA+  
(403) 775-0100  
ian.verhappen@cima.ca

**Standards and Practices Chairman**  
Wes Carter  
Shell Global Solutions  
(281) 544-7723  
wesley.carter@shell.com

**Division Website:**  
www.adsymposium.org

---

**Next Meeting Date:** February 19, 2020  
*Brought to you by Orbital Gas*

**Place:** Monument Inn Restaurant  
4406 Independence Parkway  
La Porte, TX 77571

**Time:**  
Arrival/Check-In: 5:30 - 6:30 PM  
Dinner & Presentation: 6:30 - 8:30 PM

**Speaker:** Hans-Peter Visser (Pet64)  
**Topic:** Vaporization of LNG

**RSVP:** Lance.Cizek@Horiba.com by February 17th

---

**Meeting Dates for 2020**

- February 19th
- June 17th
- August 19th
- October 9th - Shrimp Boil
- December 16th

For 2020, we would like to open up sponsorship for each meeting at a rate of $1,250 per meeting. Should you have interest in doing so, please contact Lance Cizek at Lance.Cizek@Horiba.com.
NOW YOU HAVE A CHOICE

- Made in the USA
- Same or better performance
- Increased reliability – better cycle life
- Little or no cost of change – in fact, you’ll reduce costs
- ‘Drop in Fit’ dimensions match popular industry designs
- Industry’s only blowout proof stem

HOT BOX Systems - High Temperature Sample Conditioning Solutions

- Maintain temperatures up to +150°C (+302°F)
- Hazardous Area Certified (Div. 1 / Zone 1)
- Removable equipment mounting plate for sample system maintenance
- Hybrid conduction and convection heating system
- “Optional” air flow system to improve heat stability
- Programmable PID temperature controller
- GRP and polyurethane foam sandwich construction
- Compact footprint

11050 West Little York Road, Building M, Houston, TX, 77041  866-381-8350
255 Henry Drive, Sarnia, ON, N7T 7H5  888-875-8756
Helping Global Environmental Management, Production and Quality Process

- Analyzer & CEMS Shelters
- CEMS Integration
- Field Service & Support
- FEED Studies
- HORIBA Environmental Analyzers
- 3rd Party Equipment Integration
- Startup & Commissioning Services
- Engineering & Consulting Services
- Fabrication Services
- Training

ALLEVIATE THE PAIN OF MEASURING pH

M4 Knick’s Memosens pH Sensors Are Built with You in Mind:

- Pre-calibrate ahead of time, in shop or lab, and on your schedule
- Drift & noise are non-existent with inductive, all plastic connection
- Easily replace sensors with quick disconnect at the sensor head
- Eliminate the guess work with sensor health diagnostics
- Proven and repeatable sensor performance

Call DMS at 713-541-9800 to see how Memosens is changing the status quo.

A Proud Partner of

sales@detect-measure.com / www.detect-measure.com
Orbital is committed to providing solutions to your specific application, ensuring the best results by always putting their customer’s needs first. Orbital is analyzer neutral so any analyzer brand can be readily integrated into the project based on the needs of the project, making Orbital highly versatile and suitable for an extensive range of applications.

**Orbital wide range of expertise spans:**
- EPA regulation CEMS
- Petrochemical
- Refining
- Fracking
- Process Control
- LNG
- Pharmaceutical
- Utilities/Liquid Sources
- Biogas
- And many others

**Orbital offers a range of services:**
- Front-End Engineering Design
- Analytical Systems Integration
- Startup, Commissioning
- Field Services
- Field Installation Services
- Training

**Orbital has expertise in the following technologies:**
- Chromatography/TOC, FPD, FID
- TDL/QDL
- NIR/IR
- Spectrometry
- pH, Conductivity, Turbidity
- Coriolis
- Atomic Fluorescence
- Tape Based Analyzers
- And many others

Both Orbital’s 39,000 sq ft US and 46,000 sq ft UK facilities are ISO 9001:2015 accredited.

Orbital’s VE Sample probes and Thermowells allow them to be inserted in any process conditions because the probe eliminates the vortex. This is due to innovative helical stoke design of the probe.

VE Sample Probe
VE Technology® Fixed Sample Probe

The Safest and
Most Representative Probe Available

The unique, patented design ensures that it is not only the safest sample probe on the market, but the only option for fast, accurate and most importantly, representative sampling.

The primary function of a sample probe is to extract a representative sample from a source stream for your chosen analysis. The structure must be strong enough to withstand process conditions, typically involving high pressure and fast flowing fluid, containing particulates and other contaminants, but also be able to extract and transport the sample in a way that does not alter its chemical identity or state. Several products are available that can accommodate some of these industrial conditions anticipated, but none have purpose-built solutions that are able to excel in both respects, without compromise. The VE sample probe is a product that fulfills all these needs, using novel and patented methods to excel where others are forced to compromise.

The VE Technology sample probe is the first module of a complete kit of innovative sampling products, designed and developed in-house to bring customers new levels of safety and performance - without any compromise on either. The probe shown has an integral isolation valve and is designed to integrate with a number of the VE integrated sampling systems. The probe is also available with Double Block and Bleed (DBB) functionality.

BENEFITS

1) Patented aerodynamic, electropolished probe tip actively rejects particulates, droplets and other contaminants in the sample stream, acting as a primary filter. The tip profile also prevents pressure drop and associated aerosol formation and recirculation around the tip, which causes a loss of sample integrity and representativeness in other sample probes.

2) No wake calculations are required. Patented helical strakes eliminate the vortex shedding effect which generates von Karman street downstream of the probe and induces vibrations and associated cyclic stresses on the probe and surrounding (pipeline) structure and ancillary equipment.

3) Electropolished 2mm sample pathway with no dead legs or dead spaces from probe tip to outlet ensures the sample of interest is delivered quickly and uncompromised to the sample system. Memory effects and hang-ups are eliminated with this design, ensuring the sample remains truly representative.

4) VE is built to any standard pipeline connection - flanged or screwed. By eliminating vortex shedding, practically any probe length is possible allowing control of pipeline center sampling.

5) VE integrated isolation valve allows advanced installation & commissioning of probe ahead of connecting systems.
DIA-VAC® Pumps

FEATURES

- Full Engineering Support
- Minimal maintenance
- Emergency shipments in 1 day
- Modified stroke for custom performance
- Leak free
- Oil free
- Contamination Free
- Explosion proof to NEC, ATEX, IECEx, CUTR
- Flow rates up to 200 LPM
- Pressure up to 5 barG
- Built to last for tough applications
- Corrosion resistant to stack & process gases
- Zone/Division II options

EXPERTS IN SAMPLE PUMPS FOR PROCESS & CEMS ANALYZERS SINCE 1971

For over 40 years, Air Dimensions has provided the gas analytical industry with high quality diaphragm pumps for all your sampling needs. Our unique modified eccentric stroke option allows you to tailor the pump capacity to your requirements, resulting in a well balanced system and extended life of the pump. Contact our team today and learn more about how Dia-Vac® pumps are setting the standard in performance and delivery.

At ADI, we pass your gas at the speed of need.
OUR EXPERTISE

YOUR SUCCESS

A LIFETIME OF RELIABLE PERFORMANCE

DELIVERED ON ANY SCALE BY THE GLOBAL EXPERTS IN GAS ANALYSIS.
