Director’s Message

By Brad S. Carlberg, P.E.

BSC Engineering – Daphne, AL

Well; it’s already the first week of November and the ISA Expo 2003 Conference last month at the Reliant Center in Houston is over. Were you there? I hope so, it was great! I hope you make plans to be there again next October.

Since this is the end of my 2-year term as Director, this is my last Director’s Message (boy, has the time passed quickly); but I want to urge you all to take part in the ISA Fall Expo’s as that’s what I’ll concentrate on from now on. Plus, I’ll still be handling the websites to stay in touch. I’d like to welcome Steve Moon of Documentation & Engineering Services as the new Director (effective January 1 – I ain’t leavin’ yet!). Good luck, Steve, AND have fun with it!

PUPID again had sessions on all three days this year, there was six PUPID sessions in all. I would like to thank all of the authors, presenters, and panelists for taking the time to participate. The first tutorial session entitled “Air Hood Optimization After Pad Retrofit” by Rob States of PC Engineering was great. The second paper session entitled “Pulp, Paper, and Performance” with “Basis Weight Gauges - What’s New?” by Michael Waller of Miami University PSE Dept., and “Variability is not removed, it is moved!” by Hank Brittain of Top Control Inc. The first panel session entitled “Web-Based HMI’s (Panel) was Co-sponsored by PUPID with TELCOM, G&C, and TXD included Jack Lobingier of Honeywell, and Fabio Terezinho of Indusoft. The tutorial session entitled “Implementing Ethernet I/O In The Pulp Mill” by Kevin Totherow had to be cancelled because Kevin had food poisoning; but you can see his presentation on the PUPID website. The tutorial session entitled “Configure Your Ethernet I/O System: A “Hands-On Tutorial” that I gave turned out quite well. The last panel session on Wednesday morning entitled “Ethernet I/O” Panel”, again co-sponsored by PUPID with COMPUTEC, G&C, and TXD, was the best attended of the six sessions and included panelists will be Kevin Totherow of InSource Software Solutions; Scott Saunders of Moore Industries; Benson Houglund of Opto22; Don Holley of National Instruments; and Larry Komarek of Phoenix Contact.

At this year’s ISA Fall Conference, the ISA Joint A&T/I&S Luncheon was on Tuesday. PUPID received the Honorable Mention Award for the Industries & Sciences Department Division Communication Award behind the Power and Aerospace Divisions (who tied). The PUPID Luncheon was on Wednesday AND (again) we gave FREE lunches to the attendees. This time it was a “sit-down”, “hot” lunch. Unfortunately, we had eleven attendees! You missed a nice lunch! Don’t forget the abstract deadline for the TAPPI/PUPID sessions at next May’s TAPPI Paper Summit is fast approaching. The Paper Summit will be at the Georgia World Congress in Atlanta.

I want to remind you that the PUPID Technical Discussion Forum Listserver is still up there and waiting for your question to ask the other 600 or so subscribers. So if you have a particularly tough problem that you’ve been beating your head against, post your problem on the Listserver & you may get a good solution! It doesn’t cost you anything except a bit of time!

Since the school year has started, remind any sophomore or junior college students to go to the PUPID website and download AND fill out the application to apply for the two $1000 scholarships we’re giving away again this year. The application’s are due by the end of February of 2004 (and that’s only three months away).

I hope to see you all at Expo 2004 in Houston next October! I hope to see you all there! Well, I’ll sign off now until the next issue; keep watching the PUPID website for upcoming attractions!

PUPID Sessions at ISA Expo 2003
Here are the steps I recommend use to listen to AND page through a particular presentation or paper on the following page:

1. Open up Internet Explorer AND click the “Media” button on the toolbar to add a left-hand pane in your browser’s window which will have the controls for the audio recording AND Click on the red highlighted word “AUDIO” for a particular presentation
2. Click on either the green highlighted word “POWERPOINT” OR the magenta highlighted word “PAPER” for that particular presentation or paper you can then listen to AND page through the presentation or paper
3. To change which title you which to listen to AND page through, simply hit the “BACK” button on your browser’s toolbar. To see & hear the sessions go to http://www.isa.org/~pupid/Expo2003/ISA_2003_PUPID_Sessions.htm
