Setting the Standard for Automation™

Engage with the brightest minds in industry

Access your career potential

Inspire a new generation

Join the International Society of Automation

With nearly 40,000 members around the world, ISA is the professional home for engineers, technicians, leaders, and students engaged in industrial automation.

ISA is Your Organization

Join ISA to engage with peers and subject matter experts around the world, sharing and developing best practices to advance the profession. Build your resume and your reputation, but even better, use this opportunity to inspire the next generation of technical professionals.

We are creating the future of automation, and we need your skills, perspective, and insight to make it happen. Join us!

ISA, founded in 1945, is the global professional organization for automation. We develop standards and educate the industry on critical topics like safety, cybersecurity, instrumentation, control systems, and much more.

Ashley Weckwerth

Burns & McDonnell
Kansas City, Missouri USA

“I got involved in my ISA section right out of college. This helped me meet other automation professionals all over the Kansas City area from different companies and industries. And being part of an ISA technical division has helped me interact with automation professionals all over the globe!”

Chad Kiger

AMS Corporation
Knoxville, Tennessee USA

“I have met many clients, colleagues, and friends at ISA events. It is great to be able to interact with experts in the same field as myself. Another benefit has been the sharing of information across the various generations within the industry. With many people retiring, it is important to capture the knowledge and insights of experienced professionals.”

Engage

YOUR NETWORK

Business begins, and ends, with relationships. The relationships you build at ISA can last a lifetime—you will find people to support you, jumpstart your growth and development, and positively impact your on-the-job performance.

- ▶ Network with professionals in your local area through **geographic sections**. Sections engage in the community to provide information, resources, and scholarships to advance the automation profession.
- ▶ Share case studies and best practices in a **technical division**. Divisions align members around specific technical areas of interest and expertise across a range of automation disciplines.
- ▶ Using social media platforms and technology, ISA members and leaders around the world come together in **online communities** to discuss industry trends and new ideas.
- ▶ ISA hosts topic-focused and industry-specific, **face-to-face events** in dozens of countries throughout the year, giving members a chance to hear expert speakers and panel discussions.
- ▶ ISA members can post resumes, search for jobs, or search for candidates to hire using ISA's **online job board**.

*The relationships you build
at ISA can last a lifetime.*

Ana Christina Rodrigues

SAID Engenharia
São Paulo, Brazil

“The greatest benefits that ISA offers are the technical standards of automation and industrial IT because they consolidate the expertise of professionals from different fields and from all over the world. The technical meetings are highly beneficial as well, offering the opportunity to stay current on the latest technological trends and products.”

Carlos Colon

Amgen, Inc.
Juncos, Puerto Rico

“In a constantly changing environment of technology and innovation, ISA has played a vital role in helping to keep me current and educated on new technologies and applications. In addition, ISA, as an independent third-party entity, has been able to validate to my employers my knowledge and expertise as a Certified Automation Professional® (CAP®).”

Access

YOUR POTENTIAL

*Stay on top of the latest trends
and gain access to the technical
resources you need.*

Companies look for signs of passion and commitment from their employees. Meeting the basic requirements of a job is not enough—you need to bring additional skills and value to your company.

While our industries are constantly evolving, we help you stay on top of the latest trends and give you access to the technical resources you need to navigate today's complexities.

- ▶ Set yourself apart with an ISA **certification**. ISA offers unbiased, vendor-neutral **training** and certification programs where you can develop your skills through in-depth, real-world material. Courses are offered at a discount for ISA members online, in regional classrooms, and in plants and facilities worldwide.
- ▶ Contribute your insights and **get published** through ISA's newsletters, articles, blogs, and white papers. See your name in print and boost your professional reputation. Through ISA's publications, members have access to thousands of articles and **technical papers** at no charge.
- ▶ Developed by more than 4,000 experts, on safety, cybersecurity, enterprise integration, wireless technology, alarm management, and more, as a member, you can access **ISA standards** at no charge. You can also volunteer your time and expertise to developing the next consensus-based standard—and by doing so, you will be changing the world of automation.
- ▶ Share your expertise by **presenting at a conference** educational session focusing on the latest automation developments and real-world scenarios. Help your peers develop best practices, have an impact on the industry, and get recognized for your experience. Members receive discounted registration for these events.
- ▶ **Raise your profile** by attending local section and technical division events. Get to know your peers and expand your network. You never know what opportunities you will discover through the people you meet.

Carlos Mandolesi

Sigma Automação
Paraisópolis, São Paulo, Brazil

“ISA offered me great opportunities to improve my leadership and management skills and increase my professional network. When I started participating at leadership meetings, I was able to significantly expand my horizons, and connect with professionals and companies from all around the world.”

David Riojas

George E Booth Co., Inc.
Romeoville, Illinois, USA

“Having benefited from the many rewards of a career in automation, I’ve utilized ISA as a platform to advocate for the automation profession. By working with local community colleges, high schools, and educators, I’ve talked to countless students and their parents at college fairs, STEM events, and robotics competitions about the benefits of a career in automation and how it can change lives.”

Inspire

THE FUTURE

With every ISA experience, you will find a renewed sense of excitement for your profession.

When you are a part of something bigger than yourself, it shows. With purpose and passion in your work, you find a greater calling for your career.

As a member of ISA, you become an integral piece in building a better industry. With every ISA experience, you will find a renewed sense of excitement for your profession.

Leadership in ISA brings opportunity to cultivate and practice the soft skills companies are challenged to find in their technical teams.

- ▶ Take on a **leadership** role at the local, technical, or international level to develop and improve skills like creativity, decision making, and effective communication.
- ▶ Build your **confidence** in critical thinking, brainstorming, strategic visioning, and financial planning.
- ▶ **Mentor** young people—the moments you spend with the next generation will change our future.
- ▶ Participate in **advocacy** efforts aimed at inspiring interest in technology, reminding governments around the globe about the importance of automation, and finding innovative solutions to **workforce development** challenges
- ▶ Team up with your local section to present at schools, coach robotics teams, inform your **community** about automation and provide educational **scholarships**

Edward Naranjo

Rosemount Flame and Gas Detection at Emerson
Shakopee, Minnesota, USA

“If I have a fulfilling career in industrial automation, it is due in no small part to my involvement with ISA. Through the Society, I have met professionals who share my same interests and who have tackled similar problems in adjacent areas of study. It’s been highly valuable to have these professionals as advisors and friends. They’ve helped me steer clear of many pitfalls in research and have contributed to making every day experiences all the richer.

In addition, ISA has helped me become a better manager. Thanks to ISA, I have become more adept at influencing people across organizations; I think and act more often on succession planning and I invest a greater share of my time recruiting and mentoring volunteers. Likewise, ISA’s standards have given me greater insight into many of the vexing problems that industrial automation professionals face. This, in turn, has shaped my thinking on technology development.”

Are you ready to build
the future of automation?

**Join ISA
today!**

We look forward to welcoming you into our ISA family.

The International Society of Automation (www.isa.org) is a nonprofit professional association that sets the standard for those who apply engineering and technology to improve the management, safety, and cybersecurity of modern automation and control systems used across industry and critical infrastructure. Founded in 1945, ISA develops widely used global standards; certifies industry professionals; provides education and training; publishes books and technical articles; hosts conferences and exhibits; and provides networking and career development programs for its 40,000 members and 400,000 customers around the world.

ISA owns Automation.com, a leading online publisher of automation-related content, and is the founding sponsor of The Automation Federation (www.automationfederation.org), an association of non-profit organizations serving as "The Voice of Automation." Through a wholly owned subsidiary, ISA bridges the gap between standards and their implementation with the ISA Security Compliance Institute (www.isasecure.org) and the ISA Wireless Compliance Institute (www.isa100wci.org).
