CONTENTS

1 SCOPE 13
2 NORMATIVE REFERENCES 13
3 TERMS, DEFINITIONS, AND ABBREVIATIONS 14
3.1 Terms and definitions 14
3.2 Abbreviations 18
4 ENTERPRISE-CONTROL SYSTEM INTEGRATION OVERVIEW 18
5 HIERARCHY MODELS 20
5.1 Hierarchy model introduction 20
5.2 Functional hierarchy 20
5.3 Role-based equipment hierarchy 23
5.4 Physical asset equipment hierarchy 28
6 FUNCTIONAL DATA FLOW MODEL 29
6.1 Functional data flow model contents 29
6.2 Functional data flow model notation 29
6.3 Functional model 31
6.4 Functions 32
6.5 Information exchanged 38
7 MANUFACTURING OPERATIONS 45
7.1 Manufacturing operations management 45
7.2 Manufacturing operations management categories 45
7.3 Other activities within manufacturing operations management 46
7.4 Manufacturing operations management resources 47
8 INFORMATION MODEL 47
8.1 Model explanation 47
8.2 Manufacturing operations information 47
8.3 Segment relationships 48
8.4 Categories of production operations management information 49
9 COMPLETENESS, COMPLIANCE, AND CONFORMANCE 61
9.1 Completeness 61
9.2 Compliance 61
9.3 Conformance 61

ANNEX A (INFORMATIVE) OTHER ENTERPRISE ACTIVITIES AFFECTING MANUFACTURING OPERATIONS 63
A.1 Other areas 63
A.2 Management of security 64
A.3 Management of information 64
A.4 Management of configuration 64
A.5 Management of documents 65
A.6 Management of regulatory compliance 66
A.7 Management of incidents and deviations 67
ANNEX B (INFORMATIVE) ASSOCIATED STANDARDS 69
B.1 Management of security 69
B.2 Management of configurations 71
B.3 Management of documentation 71
B.4 Management of regulatory compliance 72
B.5 Related standards on quality 73
ANNEX C (INFORMATIVE) BUSINESS DRIVERS AND KEY PERFORMANCE INDICATORS 75
C.1 Purpose 75
C.2 History 75
C.3 Drivers and issues 75
C.4 Value of standard to business 76
C.5 Vendor-independent exchange 76
C.6 Business drivers 77
C.7 Example business driver and information flow 79
C.8 Definitions 80
C.9 Data reconciliation 81
ANNEX D (INFORMATIVE) QUESTIONS AND ANSWERS ABOUT THIS STANDARD 83
D.1 Introduction 83
D.2 Role-based equipment hierarchy and physical asset hierarchy 83
D.3 Physical asset hierarchy 83
D.4 Chart of account hierarchy 84
D.5 Typical Level 3 Activities 84
D.5.1 Resource allocation and control 84
D.5.2 Dispatching production 84
D.5.3 Data collection and acquisition 85

D.5.4 Quality operations management 85
D.5.5 Process management 85
D.5.6 Production tracking 85
D.5.7 Performance analysis 85
D.5.8 Operations and detailed scheduling 86
D.5.9 Document control 86
D.5.10 Labor management 86
D.5.11 Maintenance operations management 86
D.5.12 Movement, storage and tracking of materials 86
