# Learn from the Industry Experts!

The International Society of Automation (ISA)—a world leader in automation and control instruction—gives you the expert-developed, real-world, hands-on training you need to:

- Learn from and interact with the experts
- Learn the Hows and Whys
- Earn continuing education (CEU and PDH) credits
- Fill in missing knowledge and skills gaps
- Enhance on-the-job training

## Real-world instruction. Real-world application.

ISA's automation and control technical training courses provide an unbiased, practical approach to technology application—enabling you to immediately apply your knowledge and skills in the workplace.

Courses cover a broad range of technical topics:

- Cybersecurity
- Process Safety
- Enterprise Integration
- Communications
- Control Systems
- Plant Maintenance
- Measurement and Control
- Automation Fundamentals
- And much more

## Choose from a variety of training formats

To help you fit technical training into your busy schedule while meeting your learning needs, ISA offers:

- Instructor-led, classroom courses (available onsite or at our regional training centers)
- Live and recorded webinars
- Online courses
- DVD courses
- Online, instructor-assisted training courses

## ISA Onsite Training Brings the Experts to You

Through our Onsite Training Services, ISA can bring our industry-leading instructors, proven training materials, and indispensable hands-on training devices directly to you. You gain a customized solution that is highly convenient, cost effective, and flexible—and one specially designed to help you improve your productivity and efficiency.

**ISA's Onsite Training leverages the in-depth knowledge and vast experience of more than 100 subject matter experts across a wide variety of technical fields, including:**

- Petro-Chemical
- Energy
- Utility
- Pharmaceutical
- Pulp/Paper
- Food/Beverage
- Military/Defense
- Manufacturing
- Water/Wastewater (WWT)

**Our internationally recognized training solutions will enable your organization to:**

- Increase productivity of your most valuable asset—your employees
- Implement a cost-effective program for rapid knowledge and skills development for new employees
- Minimize system downtime by providing your employees with familiarity of fundamental theories—the Whys and Hows— behind what they do
- Establish measurable, common skill levels for employees with certification documentation
- Implement a pay-for-skills program or defined career path development program
- Establish well-defined promotion and hiring criteria

To move your company forward, let ISA assess your needs and develop a training plan customized to your goals.
