Engineered HOT BOX Solution
Protective Cabinets for High Maintain Temperatures

- Made with Glass fiber Reinforced Polyester (GRP) with PU foam or mineral wool core
- Sandwich construction with extremely high insulation properties
- Avoids thermal bridges between the inner and outer skin of the cabinet, thus ensuring the heat remains in the cabinet and the outer surface remains cool even at internal temperatures in the cabinet of 284°F (140°C)
- Protection degree IP65 (IEC EN 60529)
- Precision CNC construction
- Maintain temperatures up to +284°F (+140°C)
- Smart heating system with digital, solid state PID control ensures precise temperature control
INTELLIGENT SOLUTIONS FOR CONTINUOUS GAS ANALYSIS

THIS IS SICK
Sensor Intelligence.

Automation and continuous monitoring of industrial processes are essential to achieve the best profitability and safety for chemical and petrochemical production plants. SICK offers a broad product portfolio for gas analysis, flow metering and particulate measurement. The devices use cutting-edge technology and cover extractive as well as in-situ techniques. They are designed to cope with aggressive environments and hazardous process conditions. We support our customers with intelligent, tailor-made solutions, which include sample conditioning systems and system integration. With a strong, expanding presence across the country, SICK is able to provide full after-sales support covering spare parts, repairs, field service and customer training. We think that’s intelligent. www.sickusa.com.
Analytical Products and Solutions

Complete Process Analytical Solutions
Your Process Analyzer Expertise That Doesn’t Retire

We provide leading edge products, from Process Gas Chromatography, Continuous Gas Analyzers to Laser Spectroscopy. We utilize front-end turnkey engineering to provide the best analytical solution. Engineering turnkey system solutions ensures single responsibility, dependability and risk mitigation for you. Our best-in-class life cycle support ensures the highest online analytical measurement utilization.
