International Society of Automation:
Delivering Standards-Based Technical Resources to the Industrial Automation Community

The International Society of Automation is a nonprofit professional association that sets the standard for those who apply engineering and technology to improve the management, safety, and cybersecurity of modern automation and control systems used across industry and critical infrastructure.

Founded in 1945, ISA develops widely used global standards; certifies industry professionals; provides education and training; publishes books and technical articles; hosts conferences and exhibits; and provides networking and career development programs for its 40,000 members and 400,000 customers around the world.

How does ISA and its brand family bring value to automation professionals?

For engineers, technicians, and management engaged in industrial automation, ISA is the trusted provider of standards-based foundational technical resources, driving the advancement of individual careers and the overall profession.

ISA’s brand family exists to serve automation professionals around the world. ISA’s brand family includes:

- ISA delivers cutting-edge, peer-reviewed technical resources
- The Automation Federation unifies stakeholders around cybersecurity, workforce development, and STEM initiatives
- ISASecure® offers standards-based industrial cybersecurity conformance assessments
- ISA100 WCI offers standards-based wireless conformance assessments
- Automation.com delivers real-time automation news and digital content
