CALL FOR PAPERS

The ISA Analysis Division Symposium 2017 will be held 23-27 April in Pasadena, CA USA

This annual event is recognized as the outstanding forum for discussions of new and innovative analytical techniques, developments, and applications. A worldwide array of speakers and attendees alike have the distinct opportunity to participate in informal discussions and social gatherings to acquire the latest information about analytical sciences.

Papers are currently being accepted which address topics in chemical analysis including methods, applications, hardware and software, systems and operation, and maintenance. Subject content may concern technology in development or technology applied in industry practice. Proceedings from this event are marketed and sold globally, where an International Standard Book Number (ISBN) will be assigned for distribution.

General Subject Areas of Interest

- Chemical Analyzers
- Systems Integration
- Physical Properties
- Maintenance
- Spectroscopy
- Chromatography
- Gas Detectors
- Sampling Systems
- Emerging Technology
- Validation/Calibration
- Environmental

Submission Guidelines

All papers are reviewed by the Analysis Division Paper Review Committee, and must conform, or be modified to conform to ISA and Analysis Division format and content guidelines. Papers may not be commercial in nature.

According to the stated deadlines below, all papers must be submitted in electronic format (MS Word) suitable for publication in the proceedings, and slide presentation materials must be provided in electronic format (MS Powerpoint) prior to the symposium for review and approval. A publication release form will also be required for all approved papers.

Submit Abstracts
by 9 December

An "Intent to Present" is **DUE IMMEDIATELY** to Don Nettles, Technical Program Chairman (nettlesdon@yahoo.com) with abstracts submitted by **9 December 2016** to the Paper Review Committee Chairman, Rod Spitler (rspitler@dow.com).
