Course Schedule
February – December 2014

For more information or to register, visit www.isa.org/web14/schedule or call +1 919-549-8411.
Course schedule and pricing are subject to change.

ISA’s extensive instructor-led curriculum is organized in three training paths designed to cover the body of knowledge required for technicians and automation professionals. These training paths, outlined above, are the Fundamental Skills Path, the Automation Professional Skills Path, and the Technical Skills Path. Depending on your career and professional development needs, you may opt to take all the courses in a path or just a few from a select area.

*These courses are not currently scheduled, but can be brought directly to your company through our onsite training option. Contact +1 919-549-8411 for more information.
